

# Pressure Relief Valve, PED Certified, Poppet Type, Direct Acting

# SR1A-B2/HxxL-CE1017 7/8-14 UNF • Q<sub>max</sub> 60 l/min (16 GPM) • p<sub>max</sub> 420 bar (6100 PSI)

# **Technical Features**

- Hydraulic safety relief valve suitable for use as a safety device in Category IV Group 2 applications acc.to European Commission (EC) Pressure Equipment Directive (PED) 2014/68/EU
- CE marked valves are supplied with "Declaration of Conformity", "Operating Instructions" and the list of residual risks. Always follow the operating instructions supplied with the valve!
- > Excellent stability throughout flow range with rapid response to dynamic pressure changes
- > Low hysteresis, accurate pressure control and low pressure drop through CFD optimized flow paths
- > Wide pressure range up to 420 bar
- Hardened precision parts
- > Sharp-edged steel seats for dirt-tolerant performance
- > Leak-free closing and suitable for fast cycling with long life
- > In the standard version, the valve is zinc-coated for 1000 h protection acc. to ISO 9227

# **Functional Description**

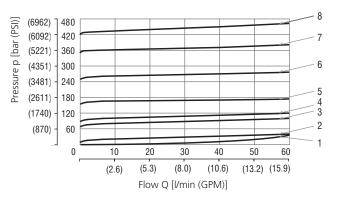

A poppet type, direct acting hydraulic relief valve in the form of a screw-in cartridge intended for use as a pressure limiting device for common hydraulic circuit protection. The spring acts on the poppet and presses it onto the valve seat. If the hydraulic pressure is below the pre-set value, the valve is closed. If the hydraulic force exceeds the pre-set value the valve opens and flow passes to tank port until the system pressure falls below the spring pre-set value and the valve closes back again.

# Technical Data

Valve size / Cartridge cavity			7/8-14 UNF-2A / B2 (C-10-2)
Max. flow		l/min (GPM)	60 (15.9)
Max. operating pressure		bar (PSI)	420 (6090)
Max. pressure (T port)		bar (PSI)	250 (3630)
Fluid temperature range (NBR)		°C (°F)	-30 +100 (-22 212)
Fluid temperature range (FPM)		°C (°F)	-20 +120 (-4 248)
Max. leakage of closed valve at		- cm³/min	0.1
80% cracking pressure			0.1
Viscosity range		mm²/s (SUS)	10 500 (49 2450)
Weight		kg (lbs)	0.27 (0.60)
		Datasheet	Туре
General information		GI_0060	Products operating conditions
Valve bodies	In-line mounted	SB_0018	SB-B2*
	Sandwich mounted	SB-04(06)_0028	SB-*B2*
Cavity details / Form tools		SMT_0019	SMT-B2*
Spare parts		SP_8010	

# **Characteristics** measured at $v = 32 \text{ mm}^2/\text{s}$ (156 SUS)

#### Relief pressure related to flow rate

	Pressure range
8	42
7	35
6	25
5	16
4	10
3	6
2	2
1	Min. pressure setting

# Valves Adjusted by the Manufacturer

- > The valves are adjusted for the specified pressure at the relevant flow rate and they are fitted with tamper-indicating seals
- > The pressure and flow rate values are indicated in the valve description on the product [pressure: in bar, flow rate in l/min]

> The seals bear the company logo

# Valves NOT Adjusted by the Manufacturer

- > Valves have no tamper-indicating seals
- > No pressure and no flow rate indicated SR1A-B2/HxxL-CE1017
- > After the completion of the functional test, the adjusting screw is completely loosened and the pressure is set to p = 0 bar
- > To adjust the required valve pressure proceed as follows:
- turn the adjusting screw to the right (clockwise) to increase the pressure
- turn the adjusting screw to the left (counter-clockwise) to decrease the pressure
- > The manufacturer accepts no responsibility for the adjustment, securing, and sealing of the valve

#### **Residual Risks**

Residual risks are listed and preventive measures against the occurrence of residual risk are described in the document "Operating instructions for pressure relief valve SR1A-B2/HxxL-CE1017" which is delivered with each valve.

# **Application** area

The diagram shows the operating region where the valve meets the requirements of Directive 2014/68/EU and Standard ISO 4126-1 on maximum short-time overshoot of system pressure by 10 % above the set cracking pressure when the valve opens.

The dynamics of the valve depend on the kinematic viscosity of working fluid.

Measurement conditions: oil Renolin VG 32, T = 40 °C (104 °F), V = 0.5 I (0.132 gal US)
